

The Marengo Coalition Coordinator, Mrs. Bernice W. Nixon administered the **PFS/BG 9<sup>th</sup> Grade Student Survey at Sweetwater High School, Marengo County High School and the Amelia L. Johnson High School**. This survey was about health behavior. It was developed so that 9<sup>th</sup> graders could check the things that may affect their health. The information from these surveys will be used to improve health education for young people like themselves. The answers are kept private and no one will know what they wrote. The students were asked to answer the questions based on what they really do.
